SUSTAINABLE DEVELOPMENT GOALS

TRiLLiON

The SDGs of the United Nations

In 2015, the United Nations developed 17 Sustainable Development Goals (SDGs). The aim of this program is to balance all components of sustainable development: economic, social, and environmental

Our goals

Drawing on the principles of DAO (Decentralized Autonomous Organization), the Trillion team aims to build a community of a million people, providing them with information and all the necessary tools for the promotion and implementation of the 17 United Nations Sustainable Development Goals

1000000
members

One million people working on the 17 global United Nations Sustainable Development Goals within the Trillion ecosystem by 2030

Trillion and UN SDGs

We have focused our efforts and expertise on three UN SDGs, in two vectors of direction — economic and social — and intend to build a sustainable ecosystem for their implementation

Society

Economy

Goal 03

Good health and well-being

Ensuring a healthy lifestyle and promoting well-being for all at all ages

Goal 04

Quality education

Ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all

Goal 08

Decent work and economic growth

Promoting sustained, inclusive, and sustainable economic growth, full and productive employment, and decent work for all

Ecosystem

To develop a strong and sustainable ecosystem, we leverage modern technologies, including blockchain, Ed-Tech, AI analytics, and DAO principles in community building

Ed Tech Platform

It provides the opportunity to learn or create one's own educational programs and serves as the main tool for implementing the three goals within the UN program

Marketplace

Selling partner products and services

DAO Community

The Trillion community is built on the DAO (Decentralized Autonomous Organization) principle. Each participant can be a learner, mentor, developer of their own project, or an ecosystem ambassador

Blockchain & AI

For the Trillion ecosystem, a blockchain has been developed, enabling the creation of unique products with access to artificial intelligence technologies

Launchpad

Providing services to intermediaries for startups and investors

Referral program & Tokenomics

The modern referral program and tokenomics of Trillion projects are designed to facilitate interaction among users, reward systems, bonuses, and provide maximum privileges for community participants

How it work

To develop a strong and sustainable ecosystem, we utilize modern technologies such as blockchain, Ed-Tech, AI analytics, and DAO principles in community building

[1] Launch Idea

The idea will be published on the Ed-Tech platform in the form of educational material
[2] Ed Tech

The community interacts with information in the academy

Community activation [3]

Useful information activates community members, turning them into target cells

Cyclicality [4]

An activated community interacts with each other and independently repeats the process, triggering a chain reaction

Target User

The direct user of the ecosystem's products and the target customer

Investor

Uses the platform as a financial instrument and a business incubator for investments

Ambassador

Fully utilizes the opportunities of the ecosystem and attracts new participants by spreading information about it

Specialist

Gains or enhances specialized skills on the Ed-Tech platform and joins the ecosystem development group
